

Getting involved with research: Training for patients and the public

Guy's and St. Thomas' NHS Foundation Trust and Kings College London's comprehensive Biomedical Research Centre is offering this free one day training session which can help you find out more about how patients and the public can help influence medical research.

What will the training cover?

An overview of the Biomedical Research Centre (BRC) and the types of research it does.
An introduction to the research process, from ideas to results.
The role of patients and the public in supporting research.

Who can attend?

Patients and the public who are already involved in research projects.
People who are not yet involved but are interested in finding out more.

When will it take place?

The next session will take place on Tuesday 28 February 2012 from 11am to 4pm.

Where will it take place?

In the Biomedical Research Faculty on the 16th Floor of the Tower Wing at Guy's Hospital.

We will reimburse attendees travel expenses and provide lunch and refreshments.
Places are limited.

The training will be facilitated by Gillian Fletcher, a freelance trainer and Sophie Auckland, User Involvement Manager at the Biomedical Research Centre.

To find out more contact Sophie Auckland, BRC User Involvement Manager on 0207 1886333 or email sophie.auckland@gstt.nhs.uk
